

Kenya Forestry Research Institute (KEFRI)
Forest Products Research Centre Open Day

The Forest Products Research Centre invites you to their Open day

Theme:

Technology demonstrations on efficient processing and utilization of forest products

When: Thursday 18th March 2010

Venue: Forest Products Research Centre off Kiambu Road
(see map over-leaf)

Time: 9.00 am – 4.30 pm

Cost: ENTRY FREE

KEFRI's Vision

To be a centre of excellence in forest science through technology development, deployment and dissemination of scientific information

KEFRI's Mission

To conduct research, provide information and technologies for sustainable development of forest and allied natural resources

What will you see?

- ◆ How to make jam, wine and sweets from indigenous fruits (*Mabuyu and Mkwaju*)
- ◆ How to make products using aloe extract
- ◆ Technologies in bamboo utilisation
- ◆ Technologies in charcoal production
- ◆ Technologies of on-farm timber processing
- ◆ Simple technologies of wood treatment
- ◆ Production of laminated wood (*fancy*) items using scrap timber
- ◆ Value addition of gums and resins
- ◆ Products made from Prosopis wood
- ◆ Other forestry products and technologies

Come and see the above displays and many more!!!
