## REGIONAL TRAINING COURSE ON ADAPTATION TO CLIMATE CHANGE IN AFRICA THROUGH SOCIAL FORESTRY 30<sup>th</sup> October – 1<sup>st</sup> December 2017

**Deadline for Receiving of Duly Completed Application Forms: 6<sup>th</sup> September 2017**

### General Information and Application Form

#### INTRODUCTION

It is increasingly recognised that climate change is evidently impacting on the natural resources and livelihoods as well as other social and economic activities that depend on tree and forest products and services in Africa. It is also apparent that it is growing faster than our collective efforts can solve it. The complex nature of the recurrent and emerging challenges, implies that no single solution approach would suffice but a multi-dimensional strategy should be used. Our countries also recognised that the challenges continue to create additional demands for capacity development and the need to work through more comprehensive partnerships.

The urgency to adopt and implement effective and comprehensive solutions to climate change in Africa through good practices in forestry and allied natural resources management is inevitable. Communities will more than ever before continue to demand and also depend on the collective and individual commitments to invest in solutions that can help them to adapt to climate change issues. Social forestry still stands out as a multi-dimensional avenue to provide the communities in Africa with the measures and motivation to invest in their environment. Evidently, Japan focus in this endeavour has been in Africa.

Japan International Cooperation Agency (JICA) and the Government of the Republic of Kenya through the Kenya Forestry Research Institute (KEFRI) in collaboration with at least 17 countries in eastern, central and southern Africa will continue cooperate with each other to build capacity through a series of regional training courses and follow-up visits on “Adaptation to Climate Change in Africa through Social Forestry” (hereinafter referred to as “the Course”) under JICA’s Third Country Training Programme (TCTP). To effect and articulate the partnership and course implementation, a Record of Discussion (RoD) was signed in September 2014 by the Chief Representative - JICA Kenya Office, the Principal Secretary Ministry of Environment, Water and Natural Resources, the Principal Secretary National Treasury and the Director KEFRI.

The Regional Training Course on Adaptation to Climate Change in Africa through Social Forestry comes after successful implementation of four previous phases and 23 courses, namely: Regional Training Course for the Promotion of Social Forestry in Africa (1995-2004), the Regional Training Course on Enhancing Adoption of Social Forestry in Africa (2005-2008) and the Regional Training Course on Mitigating Climate Change in Africa through Social

Forestry (2009-2014). To-date, a total of 469 participants from 20 countries in eastern, central and southern African countries have been trained. However, by the end of this new Phase (2014 - 2018) at least 520 participants will have been trained in our region since 1995.

During this Phase (2014 - 2018), and subject to consultations, KEFRI in collaboration with JICA plans to conduct a total of five (5) courses, thus once a year, with each course lasting five (5) weeks. In addition, a planned Follow-up Visits to five selected participating countries representing the three Regions was successfully undertaken in May 2016. It was encouraging to observe the enthusiasm and commitment with which institutions and ex-participants were engaged in implementing their action plans and integrating the FFFS extension methodology. Apart from the 1<sup>st</sup> Course, which was held in January/February 2015, all courses will be held in October/November every year.

KEFRI in collaboration with JICA plans to conduct the 4<sup>th</sup> Regional Training Course on “Adaptation to Climate Change in Africa through Social Forestry” from 30<sup>th</sup> October to 1<sup>st</sup> December 2017. Although this is the 4<sup>th</sup> Course, it will be the 23<sup>rd</sup> in a series of Regional Social Forestry Courses conducted since 1995. The 4<sup>th</sup> Course will focus on Module 2 activities. It will be held at the KEFRI Headquarters in Muguga, Kenya and conducted in accordance with the following conditions:
