

# Manuscript Submission Template

## Title of the Paper

Enter the full title of your manuscript.

## Author Information

List all authors, affiliations, ORCIDs, and corresponding author details.

## Abstract

Provide a concise summary (150–250 words) covering background, objectives, methods, results, and conclusions.

## Keywords

Include 5–7 keywords relevant to your study.

## 1. Introduction

Present context, significance, research gap, and objectives.

## 2. Literature Review

Summarize relevant literature and conceptual framing.

## 3. Methodology

Describe study design, data sources, participants, procedures, measures, analysis, and ethics.

## 4. Results

Report findings clearly with tables/figures referenced in-text.

## 5. Discussion

Interpret results, implications, limitations, and future directions.

## 6. Conclusion

Summarize key contributions and recommendations.

## Acknowledgements

Recognize contributors and institutions.

## Funding

State funding sources and grant numbers.

**Conflicts of Interest**

Declare any conflicts or state none.

**Ethics & Consent**

Provide ethics approval details and consent statements.

**Data & Materials Availability**

Include repository links or justification for data access.

**Author Contributions**

Use CRediT taxonomy for roles.

**References**

Follow a consistent citation style (APA, IEEE, etc.).

**Appendices**

Include supplementary materials if needed.

## **Submission Checklist**

- Manuscript follows required structure (Abstract, Introduction, Methods, etc.).
- Word count within limits.
- References complete and consistent style.
- Tables editable; figures supplied separately at  $\geq 300$  dpi.
- Ethics approval and consent statements included.
- Data availability statement provided.
- Author contributions listed.
- Conflicts of interest and funding statements included.
- Language and formatting conform to guidelines.
- Permissions obtained for third-party materials.
